

50+ Custom Dragon Commands for Google Chrome

Details

Dragon by default does not provide full text control when working in Google Chrome. Users of Dragon NaturallySpeaking 13 and above can gain virtually full text control by installing the Dragon Web Extension for Google Chrome and I would advise that you do so.

The following have been created by DragonSpeechTips to provide additional voice commands when using Google Chrome (web extension installed).

Address Bar & Tabs

Command(s) you can say	Description
select address bar go to address bar select url	Places the cursor in the address bar and highlights any existing URL.
duplicate this tab duplicate tab copy this tab copy tab	Makes a new copy of the current tab.
reopen last tab open previous tab	Reopens the last tab you've closed. Google Chrome remembers the last 10 tabs you've closed.
go to home page click home button home page	Opens the home page in the current tab
go back press back button	Takes you to the previous page in the current tab.
go incognito switch to incognito window switch to incognito mode	Opens a new tab in incognito mode.

Webpage

Command(s) you can say	Description
refresh page refresh this page refresh web page reload page	Refreshes the webpage.
reload and ignore cache	Reloads the current page and ignores the cached content.
print page print this page	Opens the options to print the current page.
save page save this page	Opens the options to save the current page.
stop loading	Stops the loading of a webpage.
toggle full screen mode full screen mode exit full screen mode	Switches the page to full-screen mode and vice versa.
